## 2.2 Other Visa Application

The visa application process for students initiates with record creation, feasible by either students or staff. Application status varies based on the submitted type, triggering automatic invoice generation. Furthermore, penalties prompt invoice issuance, with students promptly notified for document collection. Additionally, students are informed of requirements to submit their passport or documents to the International Student Management Center (ISMC). This streamlined process ensures efficient visa management, facilitating seamless communication between students and administrative staff for timely completion of necessary documentation and adherence to visa requirements.
